

Reliance

HPL FLOORING COLLECTION

BY IBS ELSHERBINY

Six finishes. Individual character.

Illustrative interior. Finish selection by physical sample.

The character of a space.

Pergo Reliance brings expressive wood-look finishes to the flooring conversation. IBS brings the practical support to carry that choice into your project.

6005 / ACTUAL SAMPLE

RELIANCE / 6001

Warmth,
in every detail.

6001 / Multi-strip character

Illustrative interior. Select finishes using physical samples.

RELIANCE / 6003

Depth.
With distinction.

6003 / Rich brown grain

Illustrative interior. Select finishes using physical samples.

A richer
sense of calm.

6004 / Warm, flowing grain

Illustrative interior. Select finishes using physical samples.

RELIANCE / 6006

Lightness,
with character.

6006 / Light, varied pattern

Illustrative interior. Select finishes using physical samples.

RELIANCE / 6005

IBS ELSHERBINY

Golden light.
Natural character.

6005 / Light golden tone with knots

Illustrative interior. Select finishes using physical samples.

RELIANCE / 6002

Intimate spaces.
Rich character.

6002 / Dark multi-strip pattern
Limited availability - enquire before specifying

Illustrative interior. Select finishes using physical samples.

Light, with personality.

Golden tones, knots and varied patterns. Compare the character of each finish.

6005

Light golden tone with knots

6001

Golden multi-strip pattern

6006

Light beige, varied blocks

Actual sample photographs. Lighting and screens affect colour; confirm your selection with a physical sample.

A deeper expression.

Warm browns with contrasting grain character. Code 6002 has limited availability.

6003

Rich brown, pronounced grain

6004

Warm brown, flowing grain

6002

Dark multi-strip pattern. Limited availability.

Actual sample photographs. Lighting and screens affect colour; confirm your selection with a physical sample.

Reliance, inside and out.

A commercial laminate collection with wood-look decor, a reinforced surface and a polyurethane core.

01 / CHARACTER

Six individual expressions.

From light golden knots to deeper multi-strip patterns, each finish brings its own grain, tone and rhythm. Choose using an actual sample.

6005

6003

02 / SURFACE

Protection at the surface.

The supplied technical description identifies SRS surface technology, reinforced with aluminium oxide particles to support wear and scratch resistance.

03 / CORE

Aqua Core construction.

The original Reliance specification identifies Puroflex high-density polyurethane boards, described as Aqua Core. This is distinct from a timber or HDF core.

6001

What the ratings tell you.

Specified for commercial use.

The original Reliance specification lists Class 33 and recommends heavy commercial use. Project suitability still depends on the supplied product and site conditions.

Resistance to abrasion.

The original wear test records more than 9,000 revolutions, with an AC5 reference. This describes abrasion performance, not a scratch-proof guarantee.

Protection, with practical care.

The technical description links aluminium oxide reinforcement to scratch resistance and a smooth surface designed to be easy to clean. Follow the care guidance for your floor.

The details, clearly defined.

Selected performance values from the original Pergo Reliance specification. Request the source documentation when preparing a project submission.

PROPERTY	REPORTED VALUE	REFERENCE
Use classification	Class 33	EN 13329
Wear resistance	>9,000 rev. / AC5 reference	EN 13329
Impact resistance	IC3	EN 13329
Indentation resistance	0.0 mm	EN 13329
Rolling castor resistance	No damage	EN 13329
Furniture leg resistance	No damage	EN 13329
Stain resistance	Groups 1 & 2: 5 / Group 3: 4	EN 13329
Colour fastness / fading	Class 7	EN 13329
Slip resistance	R9	Pergo sheet
Formaldehyde emission	E1	EN 717

Source: Pergo Reliance product specification, September 2002. These historical values describe the original product and cited test methods. Confirm applicability to the supplied variant and the requirements of the project with IBS.

Considered, down to the detail.

FINISHING ACCESSORIES

Discuss skirting, transitions and edge details with IBS so that the flooring works with adjacent finishes.

EVERYDAY PROTECTION

Use entrance mats and suitable felt pads or castor protection beneath furniture, as described in the original Pergo guidance.

CARE & SUPPORT

Ask IBS for the care guidance and support terms that apply to the flooring supplied for your project.

6003 / ACTUAL SAMPLE

From first choice to finished space.

El Sherbiny & Co has worked in interior finishing since 1984. Today, IBS supports clients through material selection, delivery, installation and after-sales enquiries.

01 Understand the project

Site assessment, intended use and finish priorities.

02 Select & coordinate

Samples, specification support and accessories.

03 Supply & install

An agreed supply and installation scope.

04 Stay connected

Client support after completion, within agreed terms.

Your next space starts here.

Request samples, technical information or a project quotation. Share your preferred finish, project location, approximate area and required scope.
